

Athavan Yokanathan

Software Engineering Student | Web Developer

Toronto, Ontario | athavanyokanathan4@gmail.com | linkedin.com/in/athavan-yokanathan | github.com/Athavanyy

Professional Summary

Motivated software engineering student with a strong interest in web development, user-focused design, and building meaningful digital experiences. Skilled in React, JavaScript, HTML, CSS, Node.js, and database-driven application development. Brings a problem-solving mindset, a passion for learning, and practical experience building responsive, accessible, and user-friendly projects.

Technical Skills

- Languages: JavaScript, HTML5, CSS3, Python
- Frameworks/Libraries: React, Node.js, Express, MongoDB
- Tools: Git, GitHub, VS Code, Postman, REST APIs
- Concepts: Responsive Design, UI/UX Thinking, Problem Solving, Database Design, OOP

Education

Software Engineering Technology, Advanced Diploma | Centennial College

Toronto, Canada | 2022 - 2027 (In Progress)

Focus areas include web development, software design, database systems, systems analysis, and project-based learning. GPA: 3.64/4.5.

High School Diploma | Middlefield Collegiate Institute

Markham, Ontario | 2018 - 2022

Projects

Portfolio Website

Built a responsive React-based portfolio showcasing projects, services, education, and contact details with a modern user experience.

Calculator App

Developed a functional calculator interface with clean UI design and interactive behavior for practical use.

To-Do List Application

Created a task management app focused on organization, usability, and efficient user interaction.

Certifications & Coursework

- React Developer Certification (Meta, 2024)
- JavaScript Algorithms and Data Structures (freeCodeCamp, 2023)
- Responsive Web Design (freeCodeCamp, 2023)
- Relevant coursework: Web Development, Database Design, Software Design, OOP, Systems Analysis

Additional Strengths

Strong communication, teamwork, adaptability, accountability, and a commitment to continuous learning in fast-paced technical environments.
